

Summer Internship 2026

Purple Dashboard

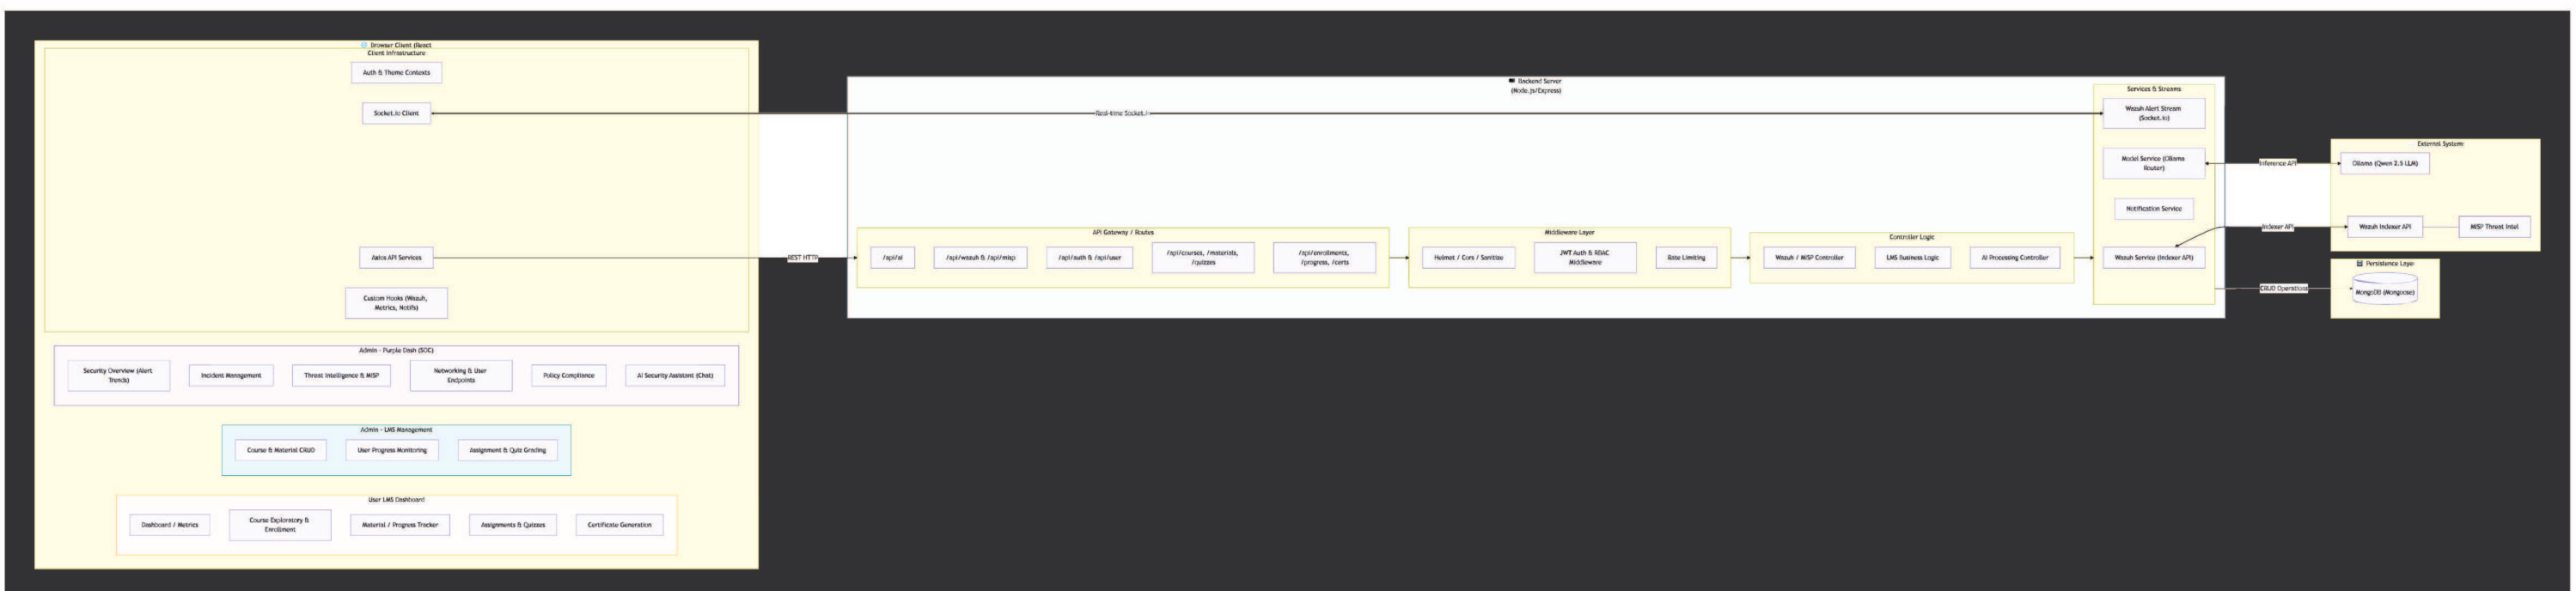

Introduction

- A real-time dashboard powered by Wazuh, to improve collaboration between red and blue teams.
- Incident monitoring, threat intelligence, MISP integration, and an AI assistant to answer secops queries in natural language.
- It also serves as an LMS to create courses, upload materials, and assign and evaluate quizzes and assignments.

Objective

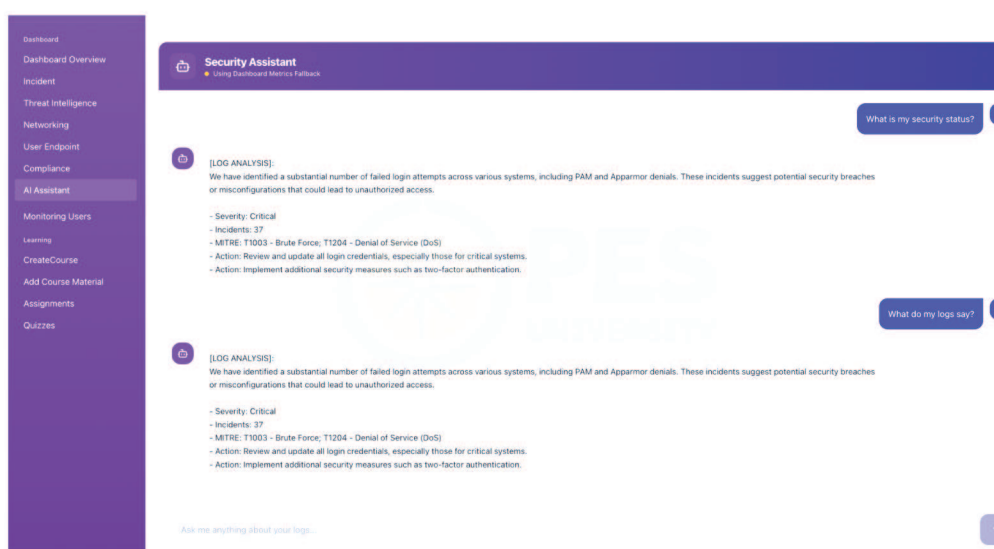

- Build a unified SOC dashboard for real-time red and blue team collaboration
- Integrate Wazuh alerts, MISP threat intel, and an AI security assistant powered by Ollama
- Enable incident monitoring, compliance tracking, and network visibility
